replit.com/@anujbhalekar908/band-name-generator-end-1#main.py

band-name-generator-end (1) Stop

main.py

```
1 print("Welcome to the Band Name Generator.")
2 street = input("What's the name of the city you grew up in?\n")
3 pet = input("What's your pet's name?\n")
4 print("Your band name could be " + street + " " + pet)
5
```

Console

Welcome to the Band Name Generator.
What's the name of the city you grew up in?

replit.com/@anujbhalekar908/band-name-generator-end-1#main.py

band-name-generator-end (1) Run

main.py

```
1 fruits = ["Strawberries", "Nectarines", "Apples", "Grapes", "Peaches",
2 "Cherries", "Pears"]
3 vegetables = ["Spinach", "Kale", "Tomatoes", "Celery", "Potatoes"]
4 dirty_dozen = [fruits, vegetables]
5 print(dirty_dozen[0])
6 print(dirty_dozen[1])
7
8 print(dirty_dozen[1][2])
9 print(dirty_dozen[1][3])
10
```

Console

```
['Strawberries', 'Nectarines', 'Apples', 'Grapes', 'Peaches', 'Cherries', 'Pears']
['Spinach', 'Kale', 'Tomatoes', 'Celery', 'Potatoes']
Tomatoes
Celery
```
